User Manual for Ultraviolet Ray Disinfection / Drying Sterilizer

This user manual contains information to ensure safe and proper use. Please read it carefully and follow the instructions for proper use.

How to Use

1. Connect the power plug and wait for the "beep" sound.
2. Press the power switch.
3. Press the set-up mode button. ( will flash on the display)
4. Press the up/down button to adjust the temperature. (default setting: 50°C, 15°C)
5. Press the up/down button to adjust the time after setting the temperature.
   (default setting: 1 hour 30min, 1hr, 1hr 50min, 1hr 30min)
   (default setting: 50°C, 1hr, 1hr 50min)
6. To switch to the consecutive operation mode, press the consecutive mode button. Pressing it once more will return to the default mode. (before it returns to the default mode, it will be in the time setting mode with a timer function.)

Installation Method

1. During installation, adjust the horizontal placement using the adjustment pedal.
2. Check the electrical capacity specified on the electrical certification attached on the side before connecting the cord to a power source.
3. Check the optimum temperature and operation time and method before set-up.

User Manual for Ultraviolet Ray Disinfection / Drying Sterilizer

1. During installation, avoid areas under direct sunlight and install it in a safe area.
2. In case of malfunction, do not disassemble and/or modify arbitrarily to prevent accidents such as electric shock.
3. Do not operate the device in a hot and humid area to prevent accidents such as fire.
4. Do not touch the device with wet hands to prevent accidents such as electric shock.
5. When the device is not in use, unplug the power cord to prevent accidents such as fire.
6. Use the device in accordance with its purpose. Do not use it for any other purposes such as disinfecting and drying food, plastic or nylon as it may lead to potential accidents such as fire.
7. Long-term disinfection and storage may lead to discoloration due to the nature of the device. Please observe the recommended temperature and operation time.
8. Do not open the door and forcibly turn on the built-in sterilization lamp as it may cause harm to eyes and cause skin burn. Please request for A/S services.
9. Do not wash the device with water. It may cause a short circuit or accidents such as fire.
10. Do not use chlorine disinfectant (bleach) as it may cause the stainless steel to corrode.

Checklist before Reporting Malfunction:
1. Is the power cord plugged in? Please plug the power cord.
2. Does the UV lamp turn on? Please change the UV lamp.
3. Does the device not operate properly? Please check the fuse.

Product Warranty

Sunkyoung Product Warranty
Sunkyoung assuresses the quality of this product through the strict quality control and test conducted by the technical staff. However, in the event that a malfunction occurs within the warranty period despite the proper use of the product, we guarantee to provide repair services and/or replacement parts free of charge.

The services will be provided with charge in the following cases:
(1) Warranty has expired.
(2) User does not have the warranty certificate or the warranty certificate was not signed by the dealer.
(3) Malfunction was due to natural disaster.
(4) Malfunction was due to user negligence.
(5) The product was modified or damaged by a person who is affiliated with neither the dealer nor Sunkyung Industry.

UV lamp is a consumable item and replacement will be provided with charge.

In case of malfunction or breakdown, please contact the dealer where you purchased the product. In the event that the problem is not resolved, please contact the nearest service center of Sunkyung Industry for immediate service.

Please keep the warranty certificate in a safe place.
1) The warranty period is 1 year from the date of purchase. When receiving repair services within the warranty period, please present this warranty certificate to the repairman of the Sunkyung Industry Service Center or A/S Service Center.
The warranty certificate must contain information on the date of purchase and the signature of the dealer.
2) Free repair services will not be provided when the required information is not indicated on the warranty certificate or the user lost the warranty certificate. So please check the warranty certificate at the dealer to make sure all the required information is filled out and keep it in a safe spot.

Customer Service Center
For inquiries regarding how to purchase Sunkyung products as well as the product prices and information, feel free to contact our dealers and/or service center. In case of delays in processing, failure on our part to provide you with the services specified in the warranty or other complaints, please contact us via mail or phone for an immediate service.
